

1HUNDRED PROJECT

Posted on 20 sierpnia 2012 by Maciej C

1hundred is a project that's been in development over the last 2.5 years. I've aimed to create a context for collaboration with other artists, craftsman, and creators of 'things' to produce and sell our own quality products. The idea is based on the premise that less is more. Small production numbers means you guys get the benefit of limited edition products not every Dom, Dick, and Harry will have and we get to focus our attention on making products with soul, that aren't just mass-produced.

Time and effort is being spent on the details, taking special care to make the products the best they can be. It's not about making a quick buck, but to produce something really worth having
